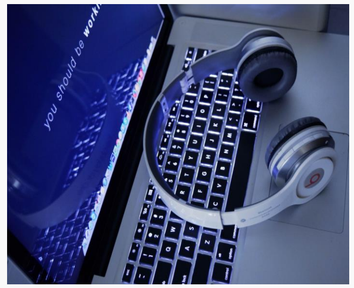
Technical Team

Share and increase your domain knowledge



The bread and butter of our team – if you think you're good in a specific field, this is your place to shine!

Web

ML/AI

Android

Cloud

Security

IoT

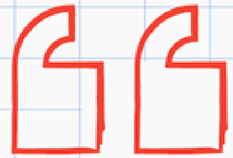
Google Developer Student Clubs

Expectations

Again, bread and butter.

The technical team forms the most important part of the club. Your task, if selected, will be to plan and host periodical events under your domain, conduct study jams and host talks, and most importantly, to brainstorm with interested people and come up with projects. You can get access to content on Google's services for conducting workshops, badges, access to several other resources (like personal development!) and to Google Developer Groups. All organizational and promotional work for events will be taken care of by the core team.

Last date to apply: 24th August 2021



And that's a wrap!

Time to apply. Head over to https://gdsc-ase-cbe.github.io to apply! Looking forward to working with you.

- Nirmal K, Lead - GDSC
